WORK EXPERIENCE

CSJDM - City Police Station (intern)

Jan 2026 - Mar 2026

- Developed a firearm tracking system for the Logistics Department, improving record organization and accelerating retrieval of inventory data for over 300 firearms.
 - Troubleshoot and repaired software-related issues on 20+ administrative workstations, improving system reliability and employee productivity.
 - Performed preventive maintenance and troubleshooting on department computers, improving system stability and supporting daily operations.
 - Provided technical support to Logistics Department personnel, assisting with software, hardware, and system-related tasks to improve operational efficiency.
-

PROJECTS

CSJDM PNP - Firearm Management

Jan 2026 - Mar 2026

- Developed a full-stack records management system for a police station implementing CRUD operations, QR code-based record tracking, and role-based access control
- Reduced manual record-keeping workload by centralizing data entry and retrieval into a single web-based platform

CDSGA Thesis Archive with AI Chatbot

July 2025 - Nov 2025

- Built a full-stack thesis archive platform with AI chatbot assistance, CRUD operations, and automated email notifications with role-based access
- Enabled BSCRIM and BSED students to search and access thesis references remotely, eliminating the need for physical library visits

Kaypian Barangay Management System

Sep 2025 - Nov 2025

- Collaborated with a teammate to develop a full-stack barangay management system implementing role-based access, OTP authentication, and automated email notifications
- Empowered barangay members to register, borrow items, and receive event updates through a unified web platform

CSJDM PNP - Firearm Management

Nov 2025 - Jan 2026

- Built an AI-powered quiz platform that generates interactive quizzes from user prompts with real-time score tracking
 - Enables users to self-assess and review knowledge on specific topics through dynamically generated content
-

SKILLS

- **Frontend:** React, TypeScript, Tailwind CSS, Shadcn UI, Zustand, Tanstack
 - **Backend:** Node.js, Express.js, REST API
 - **Database:** PostgreSQL, MongoDB, Supabase
 - **Tools & Others:** Git, GitHub, Postman, Cloudflare
-

EDUCATION

Bachelor of Science in Information Technology
Colegio De San Gabriel Arcangel Inc.

August 2022 - June 2026
